

WHS  
Regional  
Meeting

2025  
25-27 April  
New Delhi

## Sponsorship Proposal for Event Partners

## Introduction

---

**3 DAYS · 70+ SESSIONS · 400+ SPEAKERS · 100+ NATIONS · 3000+ EXPECTED PARTICIPANTS**

The World Health Summit Regional Meeting is a vital platform for enhancing global health equity, catalysing multisectoral collaboration, accelerating knowledge sharing, strengthening the resilience of health systems, influencing global policies, and driving actionable outcomes. It allows for a deep dive into specific health issues that may not receive adequate attention on the traditional global stage but are critical for certain regions. By focusing on local contexts, these meetings help identify unique challenges, such as regional disease burdens, health system gaps, or environmental health risks, that require tailored solutions

The theme for the WHS Regional Meeting 2025 is “**Scaling Access to Ensure Health Equity**”. We intend to foster scientific and political discourse on how we can scale quality healthcare to ensure health equity and uplift societal well-being. The summit intends to address themes of Digital Health and AI Futures, the Future of Health, Health Diplomacy and Cooperation, Healthcare Workforce, Innovation and Leadership, Women and Children’s Health, Planetary Health and Climate Change, Health and Peace, Communication in healthcare and many more that are innovative, relevant, and contemporary.

On April 25-27, 2025, the WHS Regional Meeting will be held for the first time in New Delhi, India. NIMS University, Jaipur, Rajasthan (Host), Ashoka University (Co-host), India, and Manipal Academy of Higher Education (Co-host), India along with the support and guidance from the WHS Academic Alliance.

As we prepare for this landmark event, we seek the support of visionary sponsors who understand the importance of investing in solving pressing health concerns that society is confronted with. Your sponsorship will not only help facilitate this high-impact meeting but will also position your organization as a significant member of the global health community.
